

Description

Microtec 2-in-1 Tumbler Mug Press machine is a great tool for applying your digital images onto coffee mugs, travel mugs, beer steins, and more. The most outstanding feature is that it can help to transfer big-size tumbler, such as 20oz tumbler and 30oz tumbler. This high-efficient 2-in-1 Tumbler press Machine is designed for high volume work. Its two mug heaters are controlled by two digital controllers so you can transfer two cups with this mug press machine at the same time. It is stable in terms of quality and sturdy welded steel structure and easy to adjust. Set up and print a digital image onto transfer paper using your favorite image manipulation software program, and then use the [mug heat press machine](#) to heat and transfer the image onto the substrate.

The main benefits of the [2-in-1 mug heat press machine](#) is how quickly the image is transferred, the easy-to-use digital control panel and thumbscrew pressure adjustments.

Accommodates 1.5oz, 2.5oz, 9oz, 11oz, super 11oz, 12oz, and 17oz mugs & 20oz or 30oz tumblers, etc all standard mugs could be transferred by this [tumbler mug press machine](#).

Specification
